# Table of Contents

|   |           |
|---|-----------|
| <b>Table of Contents.....</b>                                 | <b>i</b>  |
| <b>Introduction .....</b>                                     | <b>1</b>  |
| Introduction to Dreamweaver MX .....                          | 1         |
| Static pages vs. Dynamic pages .....                          | 3         |
| Choosing a Server-side language .....                         | 4         |
| Server-side Languages covered in this course .....            | 4         |
| Introduction to ColdFusion .....                              | 5         |
| Introduction to Active Server Pages .....                     | 6         |
| Introduction to ASP.NET.....                                  | 7         |
| Introduction to PHP .....                                     | 7         |
| Goals of this course / who this course is for .....           | 7         |
| Course Project.....   | 8         |
| Confronting Differences in Technologies.....                  | 9         |
| <b>Create a Dreamweaver “Site” .....</b>                      | <b>11</b> |
| Create a New Site – Manage Sites .....                        | 11        |
| Site Creation – Basic.....                                    | 11        |
| Site Creation - Advanced .....                                | 16        |
| Exercise 1: Create a Dreamweaver Site .....                   | 17        |
| <b>Database Basics.....</b>                                   | <b>21</b> |
| Database Alphabet Soup: ODBC, JDBC, OleDB, DSNs and SQL ..... | 23        |
| Introduction to SQL .....                                     | 24        |
| Select Statement.....   | 24        |
| Update Statement.....   | 24        |
| Insert Statement .....  | 25        |
| Delete Statement .....  | 25        |
| Course Project Database .....                                 | 26        |
| <b>Create a Database Connection .....</b>                     | <b>29</b> |
| Application Panel Group.....                                  | 29        |
| ASP.NET: Create a Database Connection .....                   | 31        |
| ASP: Create a Database Connection .....                       | 33        |
| ColdFusion: Create a Database Connection with a DSN .....     | 34        |
| <b>Server Behaviors .....</b>                                 | <b>37</b> |
| Simple Recordset/DataSet .....                                | 37        |
| Exercise 2: Build Simple Recordset/DataSet.....               | 41        |
| <b>Display Query Results .....</b>                            | <b>43</b> |
| Repeat Region.....  | 44        |
| ASP.NET: Deploy Supporting Files.....                         | 44        |

|  |           |
|--|-----------|
| ASP.NET: Create an “Application” in IIS.....   | 45        |
| Exercise 3: Display Query Results.....   | 47        |
| <b>Paging through Records .....</b>  | <b>49</b> |
| Record Paging.....   | 49        |
| Exercise 4: Paging through Records .....   | 53        |
| <b>Show Region if.....</b>   | <b>55</b> |
| Exercise 5: Show Region if.....  | 57        |
| <b>Display Recordcount.....</b>  | <b>59</b> |
| Exercise 6: Display Recordcount.....   | 61        |
| <b>Go to Detail Page .....</b>   | <b>63</b> |
| Bind data to an HTML attribute.....  | 64        |
| ASP: “Go to Detail page” Server Behavior .....   | 66        |
| ASP.NET, PHP and ColdFusion: External Extensions available .....                                       | 66        |
| ColdFusion: Add code from scratch .....  | 67        |
| ASP.NET: Add code from scratch.....  | 67        |
| Exercise 7: Go to Detail Page .....  | 69        |
| <b>Filtering a Recordset to Create a Detail Page .....</b>   | <b>71</b> |
| Method 1 - Simple Recordset with Filter.....   | 71        |
| Method 2 - Advanced Recordset.....   | 72        |
| Exercise 8: Create a Detail Page .....   | 75        |
| <b>Advanced Recordsets and Multi-table Queries.....</b>  | <b>77</b> |
| Exercise 9: Advanced Recordset and Multi-Table Query.....  | 81        |
| <b>Review and Cumulative Exercise.....</b>   | <b>83</b> |
| Exercise 10: Cumulative Exercise – Create Actors page in style of “allmovies” and “moviedetails” ..... | 83        |
| <b>Create an Admin Section.....</b>  | <b>87</b> |
| Create Admin Page .....  | 87        |
| <b>Dynamically Created Form Elements.....</b>  | <b>89</b> |
| Using Dreamweaver to create forms.....   | 89        |
| ASP, ColdFusion, PHP: Create dynamic select list of movie titles .....                                 | 90        |
| ASP.NET: Create dynamic select lists.....  | 93        |
| ASP:DropDownList.....  | 93        |
| ASP:ListBox .....  | 94        |
| Advanced SQL Technique: Create an Alias .....  | 95        |
| Exercise 11: Dynamically Create Select Lists .....   | 97        |
| <b>Insert New Record .....</b>   | <b>99</b> |
| Insert New Actor – using “Insert Record Behavior”.....   | 99        |
| Client-side Form Validation .....  | 101       |
| Exercise 12: Insert New Actor.....   | 103       |
| Exercise 13: Insert New Movie (optional).....  | 105       |

|  |            |
|--|------------|
| <b>Edit (Update) Record.....</b>                             | <b>109</b> |
| Adding the Update Record Behavior .....                      | 111        |
| Exercise 14: Edit Record .....                               | 113        |
| <b>Delete Record .....</b>                                   | <b>115</b> |
| Delete Record Behavior .....                                 | 116        |
| Delete a Record from the database .....                      | 117        |
| “Delete Record” by changing status to “inactive” .....       | 117        |
| Exercise 15: Delete Movie.....                               | 119        |
| <b>Password Protect Pages (User Authentication).....</b>     | <b>123</b> |
| Getting Ready .....  | 124        |
| Password Protect the admin section.....                      | 124        |
| Users Table .....  | 125        |
| “Restrict Access to Page” Behavior.....                      | 125        |
| Complete the login page .....                                | 126        |
| Create Logout page.....                                      | 126        |
| Check New Username.....                                      | 127        |
| ColdFusion: Potential Error .....                            | 127        |
| Exercise 16: Password Protect a Page.....                    | 129        |
| <b>Site Management Tools .....</b>                           | <b>131</b> |
| Find and Replace .....                                       | 131        |
| Built in FTP client.....                                     | 131        |
| File check-in/check-out.....                                 | 131        |
| Design Notes.....  | 132        |
| Link Checker.....  | 132        |
| Reports.....   | 133        |
| Target Browser Check .....                                   | 134        |
| (Optional) Exercise 17: Site Reporting.....                  | 135        |
| (Optional) Exercise 18: Project.....                         | 135        |
| <b>Appendix A: Extending Dreamweaver.....</b>                | <b>137</b> |
| Check the rating .....                                       | 137        |
| Installing Extensions with Macromedia Extension Manager..... | 138        |
| “Go to Detail Page” Extension.....                           | 139        |
| <b>Appendix B: Stored Procedures.....</b>                    | <b>141</b> |
| Dreamweaver and MS Access Queries .....                      | 142        |
| ColdFusion Users: Access a Stored Procedure .....            | 142        |
| <b>Appendix C: Resources .....</b>                           | <b>145</b> |
